

REVISED

December 10, 2009

Mr. Muhammad Mominul Aziz
122/Ka, Flat No: 2B
Azimpur Road
Dhaka 1205 Bangladesh

Dear Mr. Aziz:

The School of Computer Science has recommended to the Faculty of Graduate Studies and Research that you be admitted to our Master's of Science Program in Computer Science (M2), beginning Winter 2010. Provided your application file is in order and our recommendation is accepted by the Faculty of Graduate Studies and Research, you will be receiving an offer of admission from the Dean of that Faculty.

We are also pleased to provide the following information about financial assistance, provided the Faculty of Graduate Studies and Research offers you admission.

1. A Graduate Assistantship, valued at approximately \$4,500 per term, guaranteed for 2 terms, but up to a maximum of 4 terms, will be provided no later than the second semester of full time enrollment.
2. A Research Assistantship (RAship) of \$ 8,000 per year will be provided by your Supervisor, Dr. Luis Rueda. During this time you will be required to perform duties as assigned by your Supervisor. The RAship for later years of study will depend upon your performance and availability of funds. The RAship is usually provided when you start your research work, leading to your thesis.
3. Co-op placement is available for all students registered in our Master's program, subject to approval by your Supervisor and the Graduate Coordinator. Pending approval, Co-op placement allows you to work in a Canadian Company for a minimum of one term and maximum of two terms, giving you the possibility of acquiring hands-on experience in industry, while maintaining high-level standards in our research-based Master's program. Co-op placement is subject to availability of a Company that is willing to hire you, by following an interview-based process. You will be able to apply for Co-op placement after you have completed one semester of study. Last year, when we conducted a pilot project for Co-op placement, we had 100% success rate in placing our Master's students. During Co-op placement, a graduate student is able to earn while learning. The last year's experience was that a student was able to earn and save about \$10,000.00 during one placement. The feature of Co-op placement of graduate students is not available at many Universities.

Please respond to this letter as soon as possible. If we do not receive your acceptance of this offer within four weeks of the date at the top of this letter, it will be rescinded. You may respond by either regular mail or fax (519-973-7093) or by e-mail to janeb@uwindsor.ca

We look forward to working with you during your studies in the graduate program. If you have any questions, please contact the Graduate Secretary, or after arrival, the Graduate Coordinator.

Sincerely,

Dr. Akshai Aggarwal, Director

Dr. Luis Rueda, Advisor, Coordinator – School of Computer Science

Cc: Dean of Graduate Studies and Research

To Whom It May Concern:

RE: Mohammad Mominul Aziz - ID# 103-283872

This letter is to certify that Mohammad Mominul Aziz was not reimbursed for any the costs he incurred to travel to Windsor, Ontario, Canada, to pursue his studies at the University of Windsor.

Mohammad Monimul Aziz began his Masters program in January 2010 under the supervision of Dr. Luis Rueda.

Should you have any questions regarding the above student, please do not hesitate to contact our office.

Sincerely,

Mandy Turkalj
Graduate Secretary
