Dear Mr. Haque :

The Graduate Executive Committee of this department has recommended your admission to the 16 month (4 term) MSc program in Computer Science commencing September 1, 2010. Your application was forwarded to the Faculty of Graduate Studies and approved under the conditions of registration outlined on your Offer of Admission and Permit to Register.

Dr. Marc Moreno Maza will be your supervisor and will assist you in selecting appropriate courses and in finding a suitable thesis topic. If you need to contact him you are more than welcome to do so at this address, or by e-mail: moreno@csd.uwo.ca

If you are unable to obtain support from external sources, we can offer you \$27,200 for the period September 1, 2010 to December 31, 2011 (4 terms). This funding includes a full Graduate Teaching Assistantship for the Fall and Winter terms and research grant income and Western Graduate Recruitment Scholarship income.

Congratulations, as well as the above listed funding, the Computer Science Dept. has awarded the amount of \$10,000 (\$2,500 per term) from the Graduate Student Scholarship Training Fund towards your tuition to help reduce your tuition fees to that payable by Canadian residents. In the Computer Science MSc program, the waiver is tenable for a maximum of 4 terms of continuous registration as a full-time student if you maintain a "B+" standing or equivalent. This brings your total funding to \$37,200.

The Graduate Teaching Assistantship portion of this award requires that you perform a teaching service assignment for 10 hours per week for the Fall and Winter terms. In order to effectively discharge your teaching assignments, you are expected to be familiar with standard programming languages.

Financial support is conditional upon satisfactory performance of your Teaching Assistant duties while maintaining at least a "B+" average or equivalent with evidence of good progression through the program. Please note that you are eligible to receive these funds for 4 terms only (16 months) if you are registered as a full-time student.

Tuition fees are due at the beginning of each term. The scholarship portion of your funding is put directly towards helping to cover the cost of tuition fees, however, each term there will be a remaining balance that you will have to pay. In the first term, your tuition is slightly higher because of medical coverage that must be paid and the cost of producing your student identification card. Therefore, at the beginning of your first term you will be responsible for paying approximately \$ 2,200 towards your tuition. The second term you will need to pay approximately \$ 1,800 and the third term (summer) your scholarship will cover most of your tuition except for approx. \$ 250.

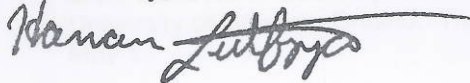

Please note that your GRA and GTA funding will be paid to you in monthly instalments at the end of each month. Therefore, no funds will be made available to you until at least September 29, 2010. Further details regarding your funding will be given to you once you arrive here in September.

You will be expected to pay your living expenses.
